

CSP-10L EX

Explosion Proof Washing SYSTEM

The CSP-10L EX washer tank is a reliable solution for CCTV surveillance in demanding environments. It helps maintain clear camera images under all weather conditions while significantly reducing maintenance requirements.

The unit features a 10L stainless steel 316L tank equipped with an explosion-proof certified solenoid valve. A pressure switch regulates the internal tank pressure, and the entire housing is constructed from corrosion-resistant stainless steel 316L. This robust design makes it suitable for onshore, offshore, marine, and heavy industrial applications.

The CS-10L EX explosion-proof washer tank is specifically designed for CASE explosion-proof cameras and is also compatible with most third-party systems.

KEY FEATURES

- ATEX/IECEEx certified solenoid Valve
- IP66 ingress protected solenoid
- Onshore, offshore, marine & heavy industrial applications

SPECIFICATIONS

Certificate	
ATEX Certificate Mark	 II 2 G IIC T6 DNV 23 ATEX 05925X
Mechanical	
Housing	Stainless steel 304 or 316L
IP	IP66
Cable glands	M20×1.5
Cable thread hole	2pcs
Ambient	
Ambient temperature	-20°C~+60°C
Voltage	24V DC/AC
Power	8W max
Air pressure	4bar max
Water tank capacity	10L
General	
Overall size	716*400*236mm
Weight	24kg
